BEFORE COMPLETING THIS FORM PLEASE READ THE FOLLOWING POINTS VERY CAREFULLY

1. The blue section on the form is optional. All other sections must be completed.
2. Kittens must be registered within nine (9) months of date of birth.
3. All surviving progeny in a litter must be registered.
 - (a) All kittens for breeding must be registered as “entire” and can only be registered in the new owner’s name if they hold a cattery prefix with a cat registering body affiliated with ACF, CCCA or Ancats. Optional – The breeder can also request to have “Not to be transferred again entire” on the certificate of registration.
 - (b) All other kittens must be registered as either “desexed” or “to be desexed”. Optional – The breeder can also request to have “pet only” on the certificate of registration.
4. The breeder must be the registered owner or lessee of the dam at the time of birth of the kittens and the dam must be registered with QFA Inc.
5. If the sire is owned by the breeder, he must be registered with QFA Inc.
6. Where the sire is not owned by the breeder or registered with QFA Inc. a copy of his certified registration/pedigree is required. The stud owner must fully complete and sign the stud service section on the form.
7. The breeder is required to register and name litter kittens either in the name of the breeder or directly into the name of the new owner.
8. A cat’s name must not include punctuations (e.g., hyphens, question marks, etc.) or ordinal numbers. Apostrophes are allowed.
9. Kitten names can be no longer than 30 letters including prefix.
10. DNA results for inheritable disorders, blood group, colour, agouti, points and longhair carriers, etc. maybe recorded on pedigrees. Breeders can submit their own test to the laboratory but must include the microchip number of the cat on the laboratory form. The results can be recorded on the Certificate of Registration and Pedigree
